Tutor:

Tuan Dung LAI

March 18, 2021

```
1  require './input_functions'
2
3  # write code that reads in a user's name from the terminal.
4  # (use the functions from input_functions.rb) If the name matches
5  # your name or your tutor's name, then print out "<Name> is an awesome name!"
6  # Otherwise print out a message that says "<Name> is a silly name"
7
8  #def print_silly_name(name)
9  #  puts name + " is a " + "silly " + "name!"
10 #end
11
12 def main()
13   name = read_string("What is your name?")
14   if (name == "Ted") or (name == "Matt")
15     puts(name + " is an awesome name!")
16   else
17     puts(name + " is a " + "silly " + "name")
18   end
19 end
20
21 main()
```

```
